ICCS 2016

- Builds on experience and results from ICCS 2009
- Enables Trend measures
- Addresses recent developments
- Includes regional modules

ICCS 2009 experience

- ICCS measured in three dimensions
 - Content dimension
 - Affective behavior dimension
 - Cognitive dimension
- Student assessment of knowledge and understanding
- Student perceptions, background and activities
- School context
 - From principals
 - From teachers

Trend measures

- Since it is desirable to measure trends, no major changes
 - in population definition
 - In dimensions to be measured
 - Trend items included in the assessment and background

Addressing current developments

● Possible topics

- Influence of developments in Middle East North Africa (MENA) region
- Discussions on civil disobedience
- Financial crises
- Usage of nuclear energy

Regional modules

- ICCS has common international frame
- But also regional discussion and topics
- ICCS has implemented successfully regional modules in 2009
- It is envisaged to offer this possibility in 2016 again maybe for other regions as well (if sufficient number of countries of a region participate - e.g. MENA?)

Schedule

- TEG review - April 2012
- Planning phase
- First NRC meeting – July 2013
- Field Trial 2014
- Main Survey – SH:2015/NH:2016
- Press release – end of 2017
- IDB – beginning of 2018

Organization

- Involvement of
 - IEA DPC
 - IEA secretariat
 - ACER
 - LPS
(same as in 2009)
- Participation fee: 20.000 USD + 20.000 € for 2013-2017

Thank you for your attention!
