

e-assessment community

FLIP+ a collaborative framework for e-assessment

60th IEA General Assembly

Ljubljana
9 October 2019

Objectives

- Context for collaboration
- Sharing knowledge and experience
- Sharing technology development
- Sharing content

Context for collaboration

- Transition of assessments from paper to computer
- New opportunities emerge
 - cost reduction
 - technology-enhanced assessments
 - adaptive testing
 - real-time feedback into learning

Context for collaboration

- how much would the change cost?
- which technology is best for test administration?
- what methods for constructing tests & items?
- Issues to consider when organising and administering the tests on a very large scale?
- how do we protect the personalised data, who has access to them?

Principles of sharing

Two important principles are encouraged by the association:

- open-source
- inter-operability

The FLIP+ journey

Sharing what?

- Sharing **technology** development
- Sharing **content**: towards an item library
- Sharing **experiences** about practical problem (implementation, contracts, organisational solutions, communication, etc.)

Association Objectives

The joint aim of the Association is:

- to **share knowledge** and **experiences** within the context of **e-assessment** in education
- to serve as **a platform** to connect and encourage networking in the field of e-assessment.

Context for collaboration

- Different national contexts, strengths, needs, experiences
- Need for a space for networking and learning from each other

- FRANCE - DEPP
- LUXEMBOURG - SCRIPT
- ITALY - INVALSI
- PORTUGAL - LISBON

+

BRAZIL (CAEd),
IRELAND, JAPAN

interest from other countries ...

Context for collaboration

- Country visits
- Conversations between assessment & technology partners
- FLIP+ events: in 2018 (Paris), in 2019 (Rome), and 2020 (Luxembourg)
- FLIP+ e-assessment community officially created

e-assessment community

Context for collaboration

Distinction between:

- The Association: a « light » structure as a platform to connect institutions and projects
- Conventions: bilateral or multilateral agreements to conduct and co-finance practical projects

Creation of FLIP+ association

- Name: **FLIP+ e-assessment community**
- Location: France
- Under the 1901 French Law, located in France

e-assessment community

Association Members

Three categories of members:
