

# OVERARCHING MISSION

IEA conducts large-scale studies to better understand education practices, processes & policies in order to *improve quality teaching & learning* within and across systems of education

IN ORDER TO FULFIL ITS MISSION, THE IEA CORE ACTIVITIES ARE BASED ON THE FOUR FOLLOWING PILLARS

## Pillar 1

Implementing studies

## Pillar 2

Advancing research & innovation

## Pillar 3

Providing expertise

## Pillar 4

Developing international outreach

FOR EACH PILLAR, AN OBJECTIVE IS DEFINED

IEA provides *high quality data for research in education* based on large-scale studies, at international, regional & national levels

IEA provides a model for *research in education & innovative approaches*

IEA offers *world-class expertise* in educational assessment

IEA studies & results *support scientific debates & policymaking* in education

TO ACHIEVE EACH OBJECTIVE ABOVE, A SET OF STRATEGIES IS OUTLINED

### 1.1

Expand participation & coverage

### 1.2

Continue to improve IEA data collection

### 1.3

Establish further IEA studies as gold standards

### 2.1

Organize & facilitate existing research

### 2.2

Conduct further research & promote innovation

### 2.3

Develop research & innovation on digital assessment

### 3.1

Continue to develop its study support services

### 3.2

Develop its training opportunities

### 3.3

Provide further capacity building

### 4.1

Produce high-quality publications

### 4.2

Disseminate its products & support their usage according to targeted audiences

### 4.3

Expand its professional networking

### 4.4

Continue its emphasis on external communication
