

IEA (International Association for the Evaluation of Educational Achievement) is an independent, nonprofit research organization. We conduct international and national large-scale comparative studies of educational achievement and other aspects of education, with the aim to research, understand, and improve education worldwide. At the IEA Hamburg over one hundred and fifty employees are involved in managing the different tasks of a study ranging from sampling to data analysis. Our experts also provide a wide array of services related to international and national surveys and assessments.

We have an immediate opening for a full-time (40 hrs/week)
Software Tester/Software Support Engineer (f/m/d)
to support our Coding Unit

The Coding Unit provides professional software applications and solutions to support various fields of activity of IEA and thus assists all IEA studies undertaken in Germany and worldwide.

Your tasks:

- Development and implementation of test strategies and test plans for web and desktop applications
- Manual and automated software tests on web and desktop applications
- Debugging of detected errors
- Software support for internal and external customers
- Creation and maintenance of software manuals

Your profile:

- Successfully completed vocational training as a Software Specialist or University Degree in IT, Computer Science, Business Informatics, or a related subject
- Good knowledge of SQL programming and relational database design (MS SQL Server)
- Good knowledge of frontend and backend web development (JavaScript, NodeJS)
- Basic knowledge of C# .NET desirable
- Ability to communicate effectively in written and oral form in English

This challenging position provides you with the possibility to gain competences in the interesting and expanding working field of educational research in which continuous improvement and personal development are stimulated. The contract will be limited for an initial period of two years, but we are interested in a long-term work relationship.

Are you interested in this engaging and responsible position in an international environment? Please submit your full application (including CV, relevant references and certificates, salary expectations, and availability). We welcome applications via email at: bewerbung@iea-hamburg.de, subject: Software Tester (0572).
