

IEA (International Association for the Evaluation of Educational Achievement) is an independent, nonprofit research organization. We conduct international and national large-scale comparative studies of educational achievement and other aspects of education, with the aim to research, understand, and improve education worldwide. At IEA Hamburg over one hundred and fifty employees are involved in managing the different tasks of a study ranging from sampling to data analysis. Our experts also provide a wide array of services related to international and national surveys and assessments.

We have an immediate opening for a part-time (15-20 hrs/week)

Student Assistant (f/m/d)

to support our Research & Analysis and Sampling Unit

The Research & Analysis Unit (RandA) at IEA Hamburg conducts research, analysis, training, support, and consultancy activities in the field of large-scale assessments in education. RandA aims at improving the science of large-scale assessments, promoting the proper use of data from IEA studies, and stimulating high quality research related with IEA data.

The Sampling Unit at IEA Hamburg develops and implements sample designs for international and national educational studies. This includes sample selection, computation of sampling weights, and preparing data sets for variance estimation. Strict adherence to state-of-the-art methods in sampling provides a foundation for high-quality study outcomes.

Your tasks:

- Supporting research projects, specifically with
 - preparing tables, charts, and figures for research reports
 - conducting statistical analyses guided by main staff
